

Mystic CLEANERS

Just Add Water to Remove Tough Stains, Dirt & Grime

Original Mystic Eraser

Sponges can be used to clean a large range of commercial applications. Our melamine foam is 100% identical to the material used in the Mr. Clean Magic Eraser®. The unique cell structure allows them to lift and remove a wide variety of stains.

The ease of use of this product has made it one of the most popular and effective cleaning products worldwide.

Stubborn stains including dirt, grease, grass, rust, and dyes can be cleaned with little to no effort because of the open cell structure.

Using only water to activate it's deep scrubbing ability, our sponges can effectively clean most stains with a simple back and forth movement. No soaps or chemical cleaners are required making our sponges safe for you, your workplace and the environment.

Commerical Applications
